## Extremely compact design teamed with high performance

Thanks to their compact dimensions, our type **M 13 34** and **M 13 35** detachable miniature door loops can be installed in any window and door profile in such a way that they remain concealed and practically invisible. The leaf can be removed at any time by loosening the locking screw and disconnecting the integrated 6-pin plug connection.

### Special features:

- Extremely compact design with “strong” electrical values
- Suitable for mounting in windows and doors
- Integrated water-tight plug connection that can be disconnected for maintenance purposes

**The benefit for you: You save both time and money thanks to the ease of installation!**

### Our smallest and most flexible door loop

The **M 12 80** miniature door loop made from stainless steel is suitable for both sensor cables and alarm glass cable links. Installation is easy thanks to the limited space required by the door loop, which allows it to be positioned almost anywhere within the rebate and still remain invisible.
