

## Visit us at the SECURITY ESSEN 2018 from 25 to 28 September!

Dear Ladies and Gentlemen,

"SECURE YOUR BUSINESS" is the motto of SECURITY ESSEN 2018 – the world's leading trade fair for security.

As an innovative technology partner for security technology components, we will be presenting a wide range of pioneering products and solutions.

The **main topics will be** electronic contactless energy and signal transmission, EN certified product range and smart home OEM sensor technology.

Understanding your needs is important to us: your wishes, your experiences and feedback from your customers. In short: we look forward to some interesting discussions with you!

Together we develop your "solutions for tomorrow".

Get your [free ticket](#) now and visit us in **Hall 6, Booth 6C90**.

**Important:** make an appointment with our product experts! Simply send a short e-mail with your name and preferred date/time to [messen@link-gmbh.com](mailto:messen@link-gmbh.com) or call +49 (0)6033 97404-0. Many thanks!

**Here's a quick look at what awaits you:**

### **MAGNETIC CONTACTS FOR THE FUTURE**

Discover our advanced range of EN certified magnetic contacts and glass breakage detectors according to **EN 50131-2-6** and **EN 50131-2-10**. With them, you are well placed to meet growing industry requirements.

### **FURTHER DEVELOPMENT: CONTACTLESS TRANSMITTER EKOM 22**

The proven electronic contactless transmitter EKOM 11 has been developed further in order to comply with the highest security requirements according to **VdS Class C** – especially important for installation, e.g. in sliding doors, door and window elements. But also to secure the pass door in roller shutters with the highest security requirements. Continue reading...

### **SMALL & STRONG: DETACHABLE MINIATURE DOOR LOOP M 13 35**

The new miniature cable transition M 13 35 can be invisibly installed in any window or door profile. In developing this product, our developers prioritised the combination of a very compact design with the highest possible performance. This is ensured by the 6-wire power cable with 3A and a voltage load of up to 48V. Continue reading...
